Doorbrims are exterior overhead door rain drip guards or gutters that divert water to keep your doorways dry while protecting and extending the life of doors, frames and hardware. Doorbrims are great for residential or commercial use on any doors that are not protected from weather including industrial, office and shopping centers. Doorbrims come in 3 UV protected colors that can be further painted your own custom color and two thicknesses to withstand even the harshest climates. Best of all Doorbrims can be easily installed in minutes with only a few ordinary tools.

Truck bed tool boxes

These newly designed side rail mount boxes for pickups are now available in low and high profile configurations. Their new low side boxes feature 1/8-inch thick marine grade aluminum construc-

tion, slanting lid design for low entry easy access, maximum storage capacity and come with removable tool trays with adjustable dividers. Theft-resistant T-handle stainless steel locks keep your tools secure against break-ins and "A" grade automotive neoprene weather stripping keeps them dry. Low side boxes are available in many sizes to fit all truck brands and bed sizes and come with a lifetime warranty.
